## Illumina Design - Sally Harding

Sally has worked closely with expert international craftsmen to design and create the timeless marble crosses and urns that can be found under the Illumina brand.

Each piece is handmade with the care of an artist's touch representing a distinctly individual feel. Classic materials are combined in new and unexpected ways: marble and glass mosaics are laid into smooth, gleaming brass forms, and ceramics are used as decorative motifs embedded into iridescent tiles.

The the deep and rich jewel colours, such as forest green, ruby red, and peacock blue-green, bring a stunning splash of colour to the cemetery. Standing between 1 to 1.5 metres high, the double or single sided crosses can be permanently and securely mounted just like traditional headstones.

## Illumina Vision

As Sally's vision comes to fruition, Australian cemeteries will feature the outstanding colour and beauty of Illumina crosses. These can be either craftsman-made similar to the designs shown on these pages, or custom-crafted to the buyer's specifications.
